

## Arvut for Companies

- Real-time business accounting
- Reliable accounting as a service
- Leverage personal expertise and AI
- Lower costs

- **Customised accounting solutions:** tailored to the specific needs of your business.
- **Outsourcing:** partial or complete outsourcing of accounting services. You can concentrate on your core business.
- **Team expertise:** benefit from a team of qualified accountants instead of a single employee.
- **Real-time accounting:** access daily updated financial statements.
- **Detailed reporting:** detailed reports and analyses that empower informed and timely decisions.
- **System integration:** no modifications needed; our system can connect with various existing systems (accounting system, front- system, HR system, procurement-system, etc.).
- **Cost savings:** reduce accounting expenses by up to 50%.
- **Time efficiency:** save up to 80% in time and effort.
- **Competitive advantage:** the Arvut accounting service transforms your accounting into a strategic asset

## Who We Are

Arvut GmbH is a **next-generation accounting service provider** that combines **Swiss accounting expertise** with **cutting-edge AI technology**. Our mission is to streamline financial processes, boost efficiency, and reduce costs compared to traditional accounting solutions.

## What We Offer

We go beyond software — we offer **AaaS: Accounting as a Service**.

This means you receive a complete, cloud-based accounting solution **that includes** both **intelligent automation** and **access to qualified professionals**, all in one flexible package.

It's modern accounting — **simplified, scalable, and multilingual** from day one.

**Our Team**

## Arvut AI Accounting Software

At the core of our **AaaS** model is Arvut's proprietary AI-powered accounting platform. It automates routine tasks like document processing and journal entry generation, while enabling remote access from any browser or device. It supports **simultaneous** accounting in **six languages**, including **German, French, Italian, English**, and more on demand.

### Real-Time, Real Smart

In addition to traditional accounting, we offer **Real Biz Accounting®** — real-time visibility and control over your financials.

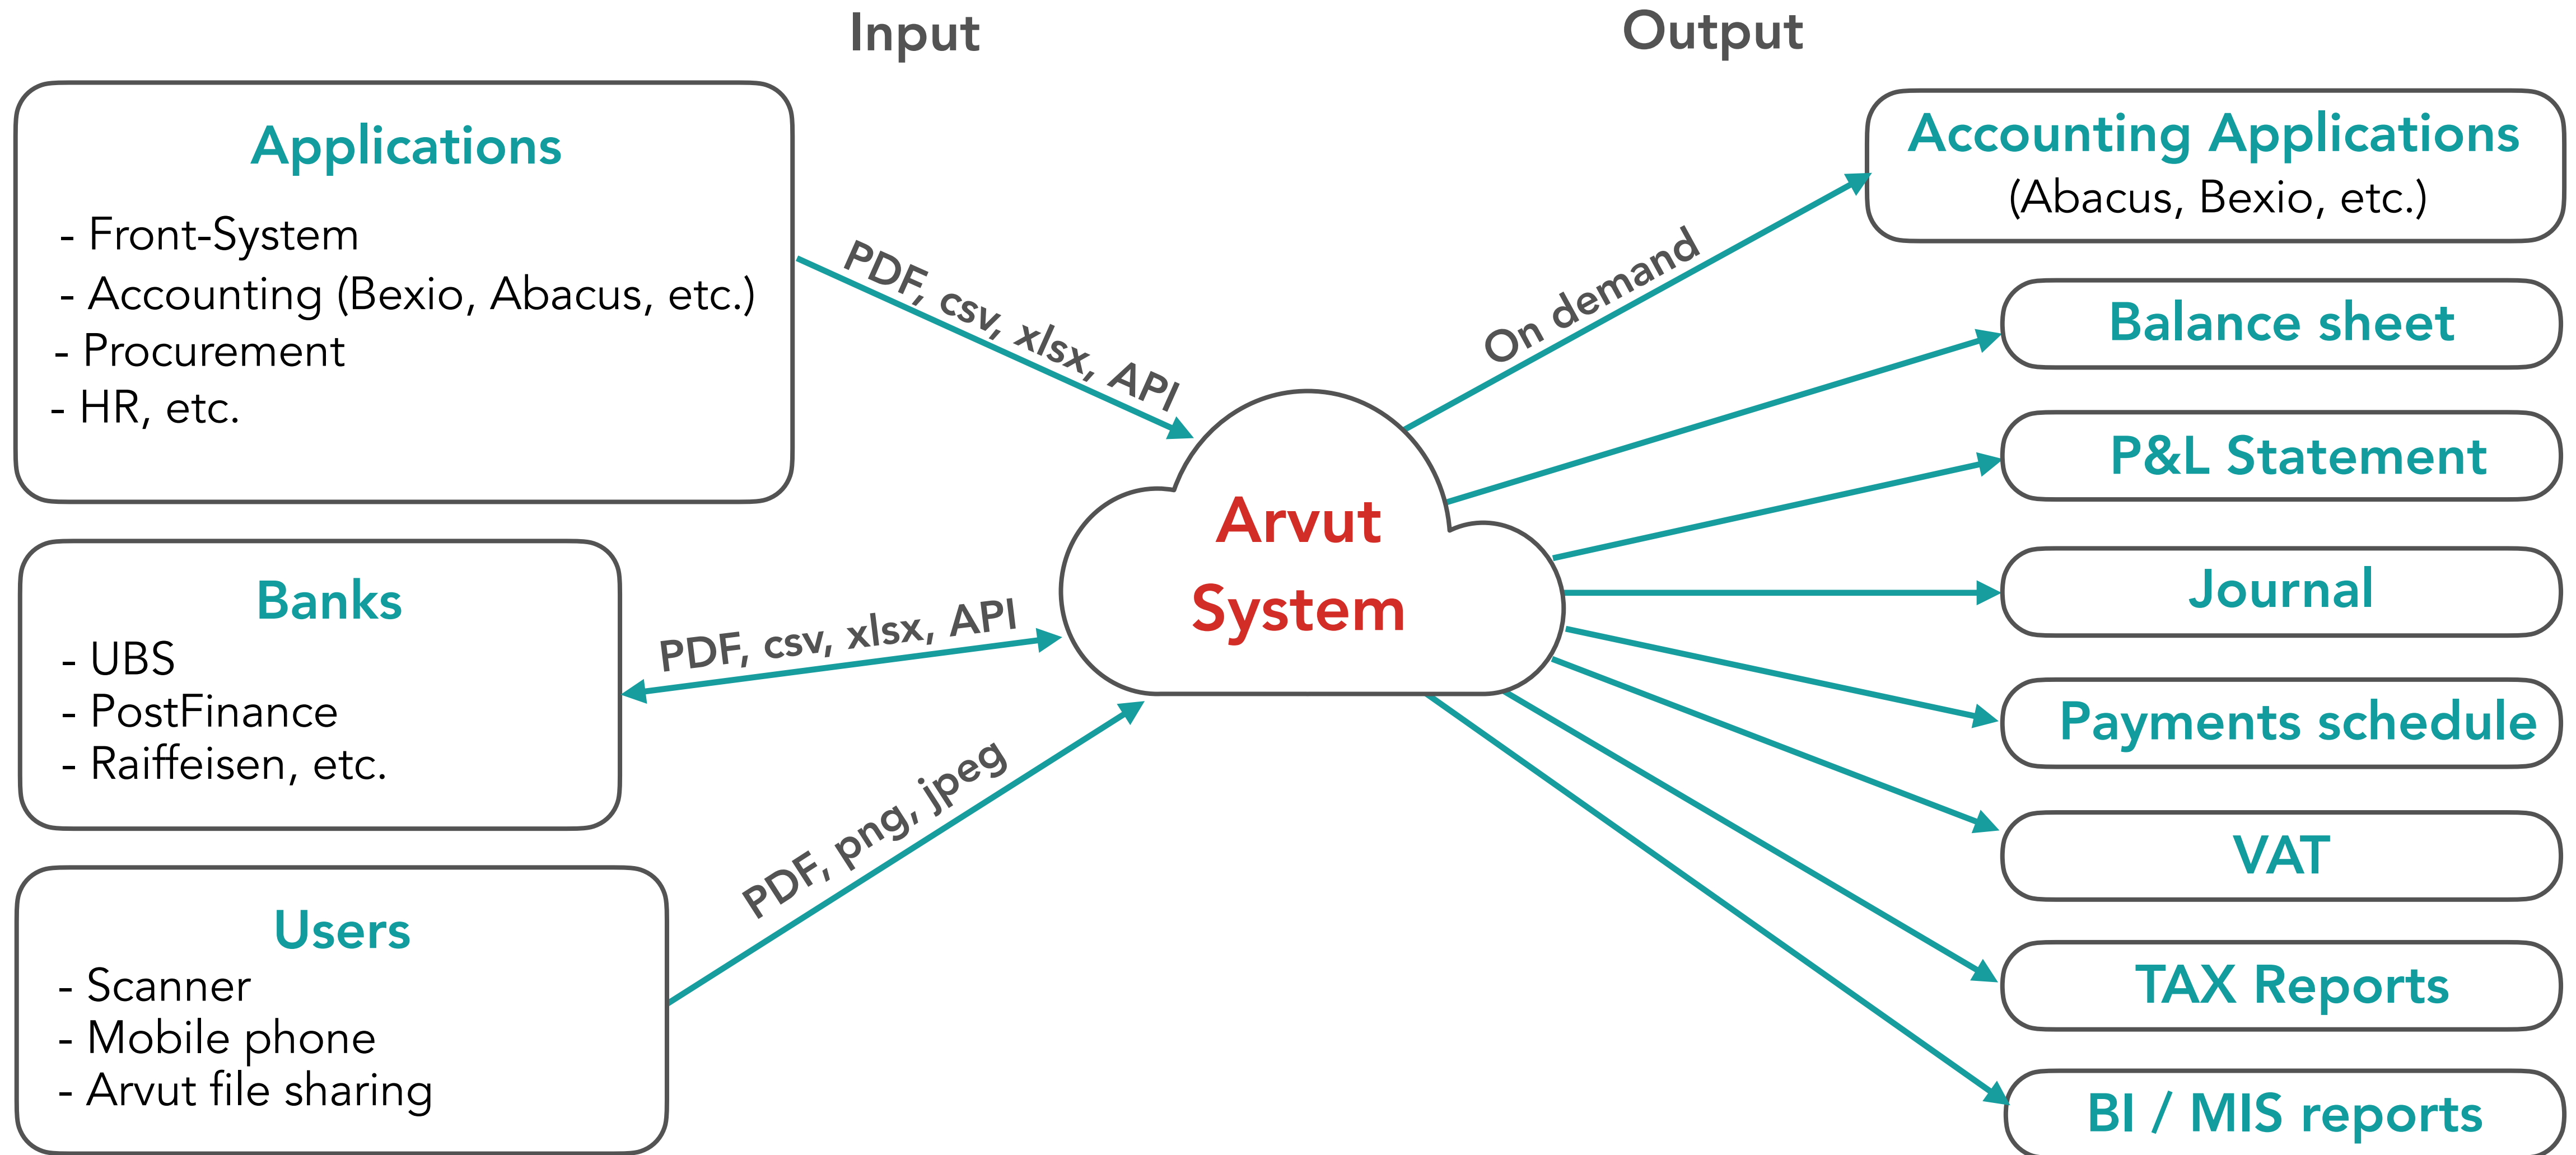

### Flexible Integration

We offer **optional integration** of Arvut with your existing systems — fully handled by our team. No changes needed on your side. Alternatively, you can use our platform as your main accounting environment. The choice is yours — and always at **no extra cost**.

### Service Structure

Our operations are powered by two teams: **Arvut Distribution** — the client-facing accounting and sales team in Switzerland and **Arvut System** — the tech team behind our AI development and innovation.
