

ARVUT GROUP
ecosystem of unity

**Projects that generate profit
and change the world**

Technology, innovations, future business, and responsibility — in one ecosystem.

ABOUT THE GROUP

ARVUT GROUP
ecosystem of unity

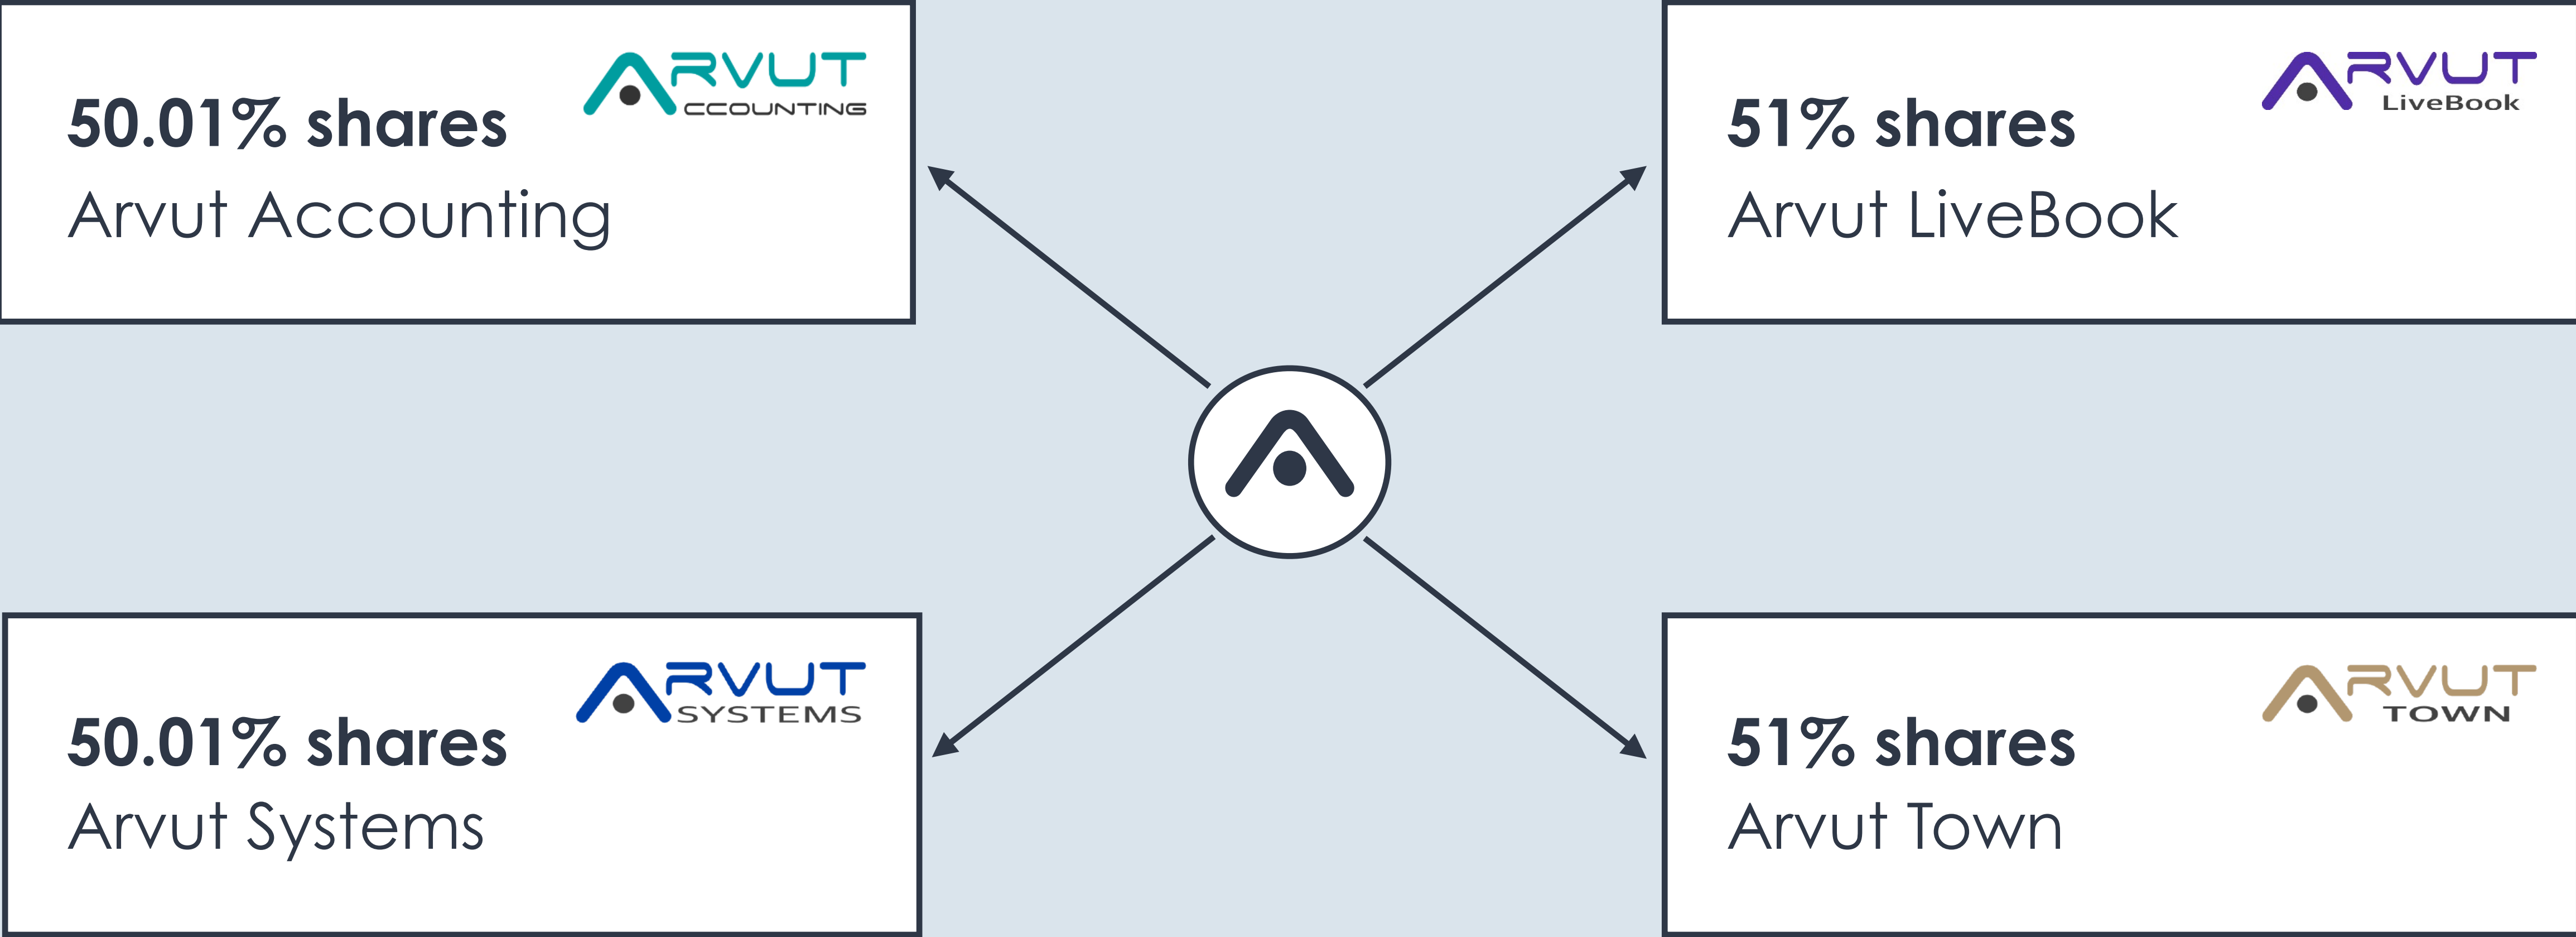

Arvut Group is more than just a business. It's an ecosystem combining technology, innovation, social responsibility, and the philosophy of unity.

Every project is built on support, cooperation, and development — for businesses, society, and each person.

The name **Arvut** (meaning mutual guarantee) reflects the core principle: personal responsibility for products, projects, people, and the future.

GROUP STRUCTURE

ARVUT GROUP
ecosystem of unity

ARVUT QUANTUM ACCOUNTING (QA)

Quantum Accounting (Accounting 2.0). A revolution in the economy.

- ✦ Accounting based on the principle of quantum superposition: products are recorded at market value until sold, while costs and expenses are recorded based on actual payment or its absence.
- ✦ **DAP (Digital Accounting Protocol)** — a real-time accounting standard, similar to TCP/IP in digital communications.
- ✦ Fully automated accounting: the business operates as a real-time digital model.
- ✦ **Accounting as a Service (AaaS)** — accounting delivered as a web service.
- ✦ **Quantum Accounting** is the technological foundation of all **Arvut Group** projects.

Project Presentation

Digital Business Card & Next-Generation Telecommunication Marketplace

- ◆ A social network, contact book, and marketplace in one.
- ◆ Electronic business cards with remote data management via client-server technology.
- ◆ Each card serves as a gateway to paid communications: voice calls, video calls, and chats at a set price.
- ◆ Next-generation telecommunication capabilities integrated directly into each business card.
- ◆ Integration with **Arvut Accounting** for automated tracking of online services.

Project Presentation

Next-generation technology platform

- ◆ An integrated IT platform: software solutions, APIs, and modules for building new accounting systems and related services.
- ◆ QA + DAP + AI = logically structured, fully automated accounting.
- ◆ Foundation for AaaS, SaaS, and PaaS products and services.
- ◆ Standardisation, scalability, and fast integration.

Financed internally by Arvut Group and founders

ARVUT TOWN

Next-generation accounting-powered co-living

- ◆ Unique residential complexes with precise personal accounting of all resources: electricity, water, space, services, and utilities.
- ◆ Living, business, work, creativity, sports, education, and leisure — within a single cooperative ecosystem.
- ◆ Internal payments using ARV coin.
- ◆ Transparency, fairness, and shared development.

Project Presentation

BUSINESS POTENTIAL

ARVUT GROUP
ecosystem of unity

The foundation of **Arvut Group** is an innovative technological product with multi-industry applications.

Proven potential for multi-billion capitalisation.

New Quantum Accounting (Accounting 2.0) — an economic revolution: reducing the cost of accounting and creating new markets.

Derived projects are entirely unique and highly profitable.

Investing in **Arvut Group** means contributing to the creation of the infrastructure for the new economy and future business environment.

SOCIAL MISSION

ARVUT GROUP
ecosystem of unity

- ◆ Support for people in difficult life situations (**Arvut Restart**).
- ◆ Creation of new jobs within the group.
- ◆ Development of cooperative residential community models.
- ◆ Establishment of a pension fund for employees.
- ◆ Unity and mutual guarantee as the foundation of every initiative.
